

Instructions for Double Parking Meter Use

1. Select Space: Select space by pressing button for where your vehicle is parked. Left and right are determined when you face the meter where the money is inserted. For additional assistance, please note the arrow. Your space is the one where the arrow is pointing to your car.
2. After pressing the button, the display will show the amount of time available for your space.
3. If additional time is needed, insert the appropriate amount of coins. (1 quarter=15 min. 1 dime=6 min. 1 nickel=3 min.). Please note the maximum time for the meter is usually a 2-hour maximum. There are some 15-minute meters, 30-minute meters, 1-hour meters and 3-hour meters. Meter maximum is located immediately below the time display. If the meter alternately displays SEL then SPC, the time for adding coins from when you originally selected the space has ended. Simply press the appropriate button for your side and the credit for your coin will be applied.
4. The window display is for your side of the meter only. If the window on the left is green and right is red, it means the left side has time and the right side has expired, or vice versa. If both sides are red, then both sides are expired. If both sides are green, then both sides have time.
5. When parallel parking if the meter is not located at the front of the vehicle it is located at the rear. When angle parking the meter may be located on the driver's side or the passenger side based on the space selected.
